Gear type pump

It is widely used in chemical industry processes such as transportation, circulation, and polymerization processes, and in harsh conditions such as the petroleum industry that conforms to API676 standards.

ARAIPUMP Rotary Gear products, which pursue high efficiency, durability, reliability and safety, meet the needs of all users who handle low to high viscosity fluids.

asphalt fluid transfer pump

Internal bearing series	• ART Series • HRT Series
External bearing series	• ARTB Series • HRTB Series (timing gear type)
